

"The role of the weekly newspaper is to mirror, faithfully and conscientiously, the community to the community, to provoke it where necessary, to praise it whenever possible, to defend it faithfully but always to serve it best by penetrating with the local news to a depth not possible with any other media."

From Vol. 1, Report of the Special Senate Committee on Mass Media, 1970.

Haliburton County The Echo

"The voice of the Highlands"

The Haliburton County Echo was established in 1882 as the Minden Echo and Haliburton Recorder. It is an independent weekly newspaper serving Haliburton County as its voice for 94 years. The Echo is published every Wednesday by Algonquin Graphics Ltd. Box 360 Haliburton, Ontario.

Vol. 93, No. 8

Circulation 4300

Wednesday

October 13, 1976

15 cents

Fred Berning gets a lesson in how to operate a yip stick from Karl Tallman. Karl was selling the sticks to help raise money at the autumnfest in Wilberforce. He told The Echo that he sold \$150 worth of sticks. The sticks were donated by Garnet Graham of Fenelon Falls.

Whitney trail will be open in winter

The Whitney Trail will be open to snowmobilers for the coming season.

Until such time as a permanent decision is made the 11 mile trail through Algonquin Park that was closed to snowmobile traffic by the Ministry of Natural Resources earlier this year

will be open to snowmobilers for the coming season.

Thanks to the efforts of the Haliburton County Snowmobile Association who held a forum on September 27 that resulted in the formation of a committee to meet with representatives of the Parks and Natural

Resources, it was decided at a meeting last Wednesday that the trail would remain exactly as it was last winter for use during the coming snowmobile season.

The meeting was held at the Frost Resources Centre south of Dorset. Present were Mr. J.A. Simpson, Parks Superintendent for Algonquin Park, Jack Vandermere, the Parks and Recreation Supervisor from the Huntsville division of Natural Resources, Dave MacLennan, Parks Superintendent for the Bancroft area, Jim Dewey, Lands and Parks Supervisor from Minden and Don White, District Forester of the Ministry in Minden. The Haliburton County Snowmobile Association was represented by president Ken Fielding Jr., and Vice president Steve Berry. Roy Bates of Haliburton was present as a representative of the Ontario Federation of Snowmobile Clubs. Joe Iles and Lee Blair, both members of the H.C.S.A. attended in order to follow through with the action that they began. Robert Stinson, secretary

Minden man killed in truck accident

Gerald Walker, 27, of Minden was killed on Friday night when a truck he was driving, crashed off Highway 35 just north of the County Line.

Mr. Walker was returning home when the accident occurred just after midnight. The tandem dump truck which he operates for a haulage business left the road after he had driven around a curve to the left. Apparently he failed to straighten and veered onto the west shoulder and into the ditch.

The truck struck a culvert in a private driveway and became airborne for about 76 feet. It struck the ditch and rolled onto its left side facing south.

Mr. Walker was thrown out of the truck and was crushed beneath the cab

when it came to rest. Seat belts were installed in the vehicle. Mr. Walker was the only occupant.

Dr. R. E. Jamieson attended at the site, and Welch's Funeral home was dispatched to the accident. Constable Pearson investigated.

M. Walker left two boys, Darrel and Darcy, and his wife, Nancy Lee Walker.

Weather does not stop Autumnfest

The first snowfall of the season did not dampen the spirits of the people of Monmouth township although it did slow down the proceedings at Autumnfest

held Saturday and Sunday. Organizers at the event admitted that the turnout was not quite as large as expected and it was pointed out that it was a direct result of the bad weather Saturday which saw mixture of rain and snow fall on the area.

The Autumnfest included a number of events to raise money to help make repairs to the Monmouth Arena which is in danger of being closed down by the Ministry of Labour.

Among the many events at the autumnfest there was a beer garden, a rockhound display, a bakesale, live entertainment, games and for the finale a turkey supper was served Sunday afternoon in the community centre.

To make the repairs on the arena the municipality will have to raise \$10,000 and \$30,000 will come from the government. \$2,000 was raised by a walkathon a couple of weeks ago and the figure has not been tabulated for the autumnfest.

Detachment says no investigation

The Echo has learned that there will not be an investigation at this time of the Ontario Provincial Police Minden detachment.

Constable Wim Magee, public relations officer for the Minden detachment told the Echo that there was no investigation last week or none planned in the near future although he admitted that the possibility of an investigation had been discussed.

Last week The Echo learned from an informed source that there possibly could be an investigation of the OPP Minden detachment because of stories and editorials which have appeared in The Echo.

Fearrey is not happy with police protection in village

Dysart et al Reeve Murray Fearrey is not happy with the police protection in and around the village of Haliburton.

Reeve Fearrey told The Echo that the problem is "we haven't got sufficient police protection."

In a council meeting Sept. 13 Reeve Fearrey told Cpl. Terry Sneddon and Constable Wim Magee, of the Minden detachment that he has heard of it taking two to three hours for a police car to get to Haliburton.

Reeve Fearrey related a case to The Echo concerning a man who could not get an answer at the police station

at 1:30 a.m. last Saturday morning.

In an interview with the man, who did not want to disclose his name, The Echo learned that the man had phoned the police to report an accident on Highway 121 West of Haliburton but the phone was not answered after several rings. The man said he then phoned the ambulance service who answered on the first ring and said they would come to the scene and attempt to contact the police.

Constable Magee, public relations officer for the Minden detachment of the OPP told The Echo that

generally there is no one on the desk after midnight although sometimes the officer has to stay around to wait for calls.

He said that two men are

on duty after midnight but both are on patrol. Constable Magee said that after that time the men are dispatched by the Lindsay OPP who can be reached

through a Zenith number which is listed in the phone book.

He said that after 3 a.m. when no officers are on duty in the Minden detachment the procedure is to call the Zenith number and they will call the officer who is on call. He pointed out that

generally the officer on call has a patrol car at home to save him a trip to the office.

Constable Magee said that the officer on call after 3 a.m. is usually one who is on shift beginning at 7 a.m. which means if he is called out there is no problem with overtime.

Three saved in Little Hawk Lake boat accident

Quick action on the part of a number of people could be credited with helping three people who were in a boat that capsized Sunday night in Little Hawk Lake.

John Tomlinson and two passengers in his 12 foot aluminum boat were thrown into about six feet of water when the boat struck a rock and capsized in the lake.

Mr. Tomlinson said he had supper with friends and was taking Dr. and Mrs. Kenneth McEachern back to their cottage when the boat capsized.

He said he got both Dr. and Mrs. McEachern to their dock and went into the cottage and phoned Little Hawk Lake Lodge for help. Mr. Tomlinson noted that the McEachern's were suffering from the cold water.

He said that Gord Bennett, the owner of the lodge phoned an ambulance and proceeded by boat to the McEachern cottage which is only accessible by water.

The three were taken back to the lodge by Mr. Bennett where an ambulance from Minden and an auxiliary vehicle from the Stanhope fire department were waiting.

Mrs. McEachern was taken to Haliburton Hospital by the auxiliary vehicle while the men were taken to Minden Hospital by the ambulance. The McEachern's spent the night in the hospital while Mr. Tomlinson was treated and released.

1 officer enough after 12

The Ontario Provincial Police does not have a rule that two officers have to be in a patrol car after midnight.

A story which appeared in The Echo Sept. 15 stated that Cpl. Terry Sneddon of the OPP said that the OPP has a rule that one man is not permitted to ride in a cruiser alone at night.

The Minden detachment of the Ontario Provincial Police has informed The Echo that this is a detachment rule up to the discretion of the detachment commander.

According to notes taken by an Echo reporter at the Dysart et al council meeting where Cpl. Sneddon was speaking it was stated by the Cpl. "We won't let one man ride in a cruiser at night."

Valerie Anderson, 6, of Toronto, got a taste of winter while visiting Haliburton Saturday. Valerie didn't let the unseasonal snowstorm bother her though. She decided to enjoy it in the way children have for many years, by attempting to catch the snowflakes in her mouth.

Chamber slogan?

"Go sign up a freeloader"

Dennis Weymouth, past president of the Haliburton Highlands Chamber of Commerce, said that there are non members of the chamber receiving benefits from that groups promotion.

Speaking at the annual meeting of the chamber, held at the PineStone Inn, Mr. Weymouth suggested that a slogan for the coming year should be "Go sign up a freeloader."

More than 160 persons were on hand for the meeting which included the election of new directors, a business session, supper and dance.

The directors of the chamber are Dennis

Casey, of Shamrock Drilling and Quarry, Shamrock Shell and Birch Point Lodge; Bill Foote of the Minden Progress; Ron Barr of Barr's Store, Funeral Parlour and Cottages; Barbara Bolin, administrator of the Haliburton School of Fine Arts; John Hogg of Mr. Fogg's; Don Nye of the Wagon Wheel Motel, John Teljeur of Deer Lodge; Mike Vukic of Mike's Milk; Bob Mann of Highland Publishing (under construction); Marshall Leighton of Brohm and Leighton; Peter Preistman of the Terrace Inn and Norman Healey retired vice president of marketing for Premier Life Insurance Co.

The new board of directors will meet for the first time today.

Bob Stinson, secretary manager of the chamber, told those in attendance that chamber membership has risen from 127 a year ago to 300 now.

He noted that the Chamber is "doing what we think you want for your benefit."

Mr. Stinson added that involvement of the general membership in Chamber activities will be increased in the coming year. He pointed out that committees that in the past have been made up of several directors will in the future be headed by one director and made up of

chamber members.

In addressing the meeting, County Warden, Gerry Howarth commended the Chamber for its dependence on its membership "which is as it should be."

Mr. Weymouth pointed out that a chamber of commerce should be self-sufficient in order to have an impact upon the development of its region. He noted that it is hard to have a strong voice in response to government proposals when the chamber relies on government funding. He pointed out that to be more self-sufficient, more members are needed.

Mr. Stinson, in his capacity as secretary manager also takes on the position of executive director which will give him voting privileges on the Ontario Chamber of Commerce and with the Ministry of Tourism in order to represent the opinion of the Haliburton Chamber at meetings where a director is not present to vote.

The members also voted to allow the board of directors the right to set a new scale for membership in the chamber, provided the board be open to feedback from the members before the suggestions of the board are adopted.

This and that

By Jennifer Woods

Now that the cooler weather is arriving it is

time to think of hot nourishing meals. Here are three dishes that we enjoy very much.

Stuffed Cabbage

1 medium sized cabbage
1 pound of ground beef
1 can of stewed tomatoes
1 cup of rice
onions
carrots
herbs

Cut the tope (about 1/4) of the cabbage and place to the side. Gouge out the insides of the cabbage until there is a hold with an approx. 2 inch perimeter of cabbage remaining. This excess cabbage can be used for tomorrow's vegetable. Cook the ground beef with your favourite herbs and mix with the cooked rice. Then place this mixture into the cabbage and tie it with butcher's twine. I treat it as if it were a pot roast. Just place it in a large casserole with stewed tomatoes and onions surrounding it. Cook for two hours basting it about every 20 min. Serve the Stuffed Cabbage with Curried Carrots.

Curried Carrots

Cut up three large carrots and place in an ovenproof dish. Dot with margarine and cook for 1/2 hour. Do not add any water. There is enough moisture in the carrots. You will be pleasantly surprised how sweet carrots are when cooked by themselves. Just before cooking add 1/2 tsp. curry powder - this herb really brings out the flavour.

I also have baked potatoes with this meal and then I am using my oven for all my cooking.

soy burgers

1 pound of ground beef
1/2 cup of soy sauce
1/4 cup of wheat germ
1 egg
garlic

Mix beef with the soy sauce and beaten egg. Add the wheat germ and soy sauce and as much garlic as you wish. I let this mixture sit in the fridge for a few hours. When I served these burgers for dinner everyone thought I had added onion soup mix. They were a great success.

Macaroni and Beef

1 1/2 pounds of ground beef
1/2 minced onion
2 tins Tomato Sauce
1/2 pound uncooked macaroni
1/2 cup chopped green pepper
1 1/2 tbl. Worcester Sauce
garlic

Brown the beef in the skillet until it loses its red colour. Remove meat from the pan and drain off the fat. Cook onions, pepper and macaroni in the skillet until the pasta is yellow. Place meat and macaroni mixture into casserole. Add 2 tins of Tomato Sauce, garlic and Worcester Sauce. Grate cheese over the top and bake for 1 1/2 hours in a moderate oven. (350F) Serve with this Broccoli recipe.

Broccoli

2 pounds chopped broccoli
1/2 cup margarine
1 can of water chestnuts diced
2 tablespoons minced onion
1/4 cup lemon juice
2 tablespoons soy sauce

Cook broccoli and drain. Melt margarine in skillet and add water chestnuts and onion. Saute a few minutes and add lemon juice and soy sauce. Toss the cooked broccoli with this mixture. Heat thoroughly and serve. Serve six.

I hope you enjoy meat and vegetable dishes and if you have any suggestions just call and let me know. A couple of these recipes were from my kind neighbour.

"Good living" to you and your family.

LICENCED BY L.L.B.O.
SEVEN DAYS A WEEK

Echo Family

News from Carnarvon

Mr. & Mrs. Ritchie Harrison have just returned from their holidays. They visited with relatives in Campbell River, B.C.

Mr. & Mrs. Bert Harrison are visiting with their son

Nelson and his family in London, and on their return they expect to spend a few days in Aurora.

Mrs. Jack Barnhart and Mrs. Curry Bishop of Haliburton had a day in Orillia last week.

The Maurice Windsors had their daughter Mrs. Don Epp and her daughter Sharon from Kitchener, also Mr. & Mrs. Garth Windsor of Belleville for last week.

Congratulations to Mr. & Mrs. Ron Bacon on the birth of their baby.

Mrs. Dick (Dorothy) Thomson of Victoria B.C. is visiting for a week with Mrs.

Estelle Ralph. Dorothy is a former member of Carnarvon, and she and Dick ran the "Homestead" for a number of years.

Mrs. Lou Tompkins of 12 Mile Lake had her sister and husband for a few days and they also visited with the Maurice Windsors. The So-verigns come from Honey Harbour.

Sandra Barnhart is going to Fredericton N.B. with Mr. & Mrs. Curry Bishop to Fredericton N.B. for the thanksgiving week end, they are going to visit with Greg who is in college there.

We are pleased to see Sinclair Russell home again from hospital, and he has to take things easy for awhile, but we hope he will soon be feeling much better.

On Wednesday the ladies of Zion United Church had a luncheon for a bus load of sightseers come up to our country to see the colors.

Mrs. Stitt and her sister and brother in law, Mr. & Mrs. Stringer were in Toronto on Saturday for their niece's wedding. Mrs. Stitt stayed with Mrs. May Pounds and the Stringers with their daughter overnight.

Last week Maurice and Craig Windsor flew to Wascada. Mon. for duck hunting.

We were all deeply grieved to hear of the accident to Mark Fennel, son of Mr. & Mrs. Ron Fennel. Mark had an accident coming home from school on Friday and is in the Ross Memorial Hospital, in Lindsay. He is going to be in there for quite some time and he would be very happy to receive cards from the Carnarvon folks, also some of his school friends. Be sure and send him a card once in a while, his room number is 2120. We are sorry that this happened to Mark and he will sure be happy to hear from some of his friends.

Haliburton Highlights

It was quite a weekend weather wise. Plenty of snow on Saturday and a nice sunny day on Sunday and Monday. It seemed quite early to have snow on Thanksgiving weekend. This could be a record.

We had the opportunity to be on hand for the Minden Kinsmen Demolition Derby which was held at the Minden Community Park on Saturday afternoon. The drivers put on quite a show for the crowd which was smaller than usual due to the inclement weather.

The Thanksgiving weekend brought with it many visitors to the Highlands and many eating establishment held social Thanksgiving Dinners.

The Haliburton Highlands Pioneer Museum is now closed after a very successful season. Hundreds of people visited the museum this year.

Always wear substantial footwear -- not sandals or running shoes when gardening, and use gloves when handling hedge clippers, knives and thorny plants. Plan your gardening duties and don't overextend yourself, says the Ontario Safety League. Use a little safety-consciousness.

All Veterans are advised that Mr. Ian Urquhart, Provincial Service Officer will be visiting Branch 129 at Haliburton on October 18th at 5 p.m. Anyone wishing information call Branch 129 - 457-2571 or Harold Douglas 457-1457. Judge H.D. Peterson will be the guest speaker when the Full Gospel Business Men's Fellowship hold their monthly dinner at Deer Lodge this Saturday evening, October 16th at 7:00 p.m.

Mr. Harley Fader of Donald, Ontario will be the guest speaker when the Brotherhood of Anglican Churchmen hold their monthly Communion and breakfast at St. George's Anglican church, Haliburton this coming Sunday October 17th at 8:00 a.m. All members are asked to attend.

We wish to welcome Mr. Douglas Collins to the Haliburton Highlands. Mr. Collins is the new proprietor of the Highland Junction Restaurant.

A Canadian Red Cross Summer Safety Tip: Yell to us for help before you need it, says the Water Safety Service. Sound instruction in boating and swimming will make everyone live longer.

ONTARIO LOTTERY CORPORATION

H·H·S·S· News

by Becky Davidson

The "outers" are planning another canoe trip for October 16, 17 and 18. They will be canoeing just south of Catchacoma Lake.

Our girls' basketball team had their first game October 7 against L.C.V.I. in Lindsay. The Midgets won with a score of 28-24. Kelly Martin was the outstanding player. The juniors lost 21-28. Alison English was the outstanding player. The seniors also lost but with Darlene Danilko as their outstanding player. Their next game will be October 12 against Fenelon.

Our football team is really working hard in their practices for their next game October 14 against Lindsay. Coach Gary Brohman predicts: "We're going to win." We will have a more balanced offensive attack because our passing game has improved 100 per cent.

The newest organization at the school is the French Club, supervised by Mrs. McLean. The club aims at improving French skills while still having fun.

October 18-23 is the Ontario wide Nutrition Week. As a special project, during that week, Mrs. Kenny's grade 10 Family Studies classes will be going to Victoria Street School to teach the students there about proper nutrition.

Congratulations to Mr. Gary Brohman and his wife Dawn who had a baby boy, Peter, October 6.

Double congratulations to Mr. Paul Morrisette and his wife Sharon who had twins, Mark and Kevin, October 2.

The annual Honour Banquet and Awards Night will be held October 23. The banquet will commence at 6:00 in the school cafeteria. At 8:00, there will be the presentation of Honour Student pins and bars, as well as other awards, in the auditorium. The Scholarship Committee consists of: Chairman; Mr. R. Herlihey, Secretary; Mrs. L. Madden, and Treasurer; Mrs. M. Kuno. The committee has worked long and hard in organizing this event. It is sure to be a success.

TODAY'S CHILD

BY HELEN ALLEN

THE TORONTO SUN SYNDICATE

Brian is an appealing nine-year-old with one great wish. He wants to be adopted so he will have a mother and father and a home where he will stay.

French Canadian and Indian in descent, Brian is a healthy lad who prefers quiet games to energetic ones. He'd rather play with one child at a time than in a group. A tidy, well-organized boy, he is particular about his clothes and his appearance. He is both helpful and conscientious.

Because of lack of stimulation in his early years, Brian is functioning below the average for his age. He is attending an ungraded school. He cannot be rushed but he responds well to individual attention and encouragement.

Quiet, shy, Brian finds it easier to get along with women than with men, especially if the latter are the hearty energetic type. Warm, gentle, involved parents who are prepared to wait for Brian to return their affection and who do not worry over academic excellence will find him a rewarding son.

To inquire about adopting Brian, please write to Today's Child, Ministry of Community and Social Services, Box 888, Station K, Toronto M4P 2H2. In your letter tell something of your present family and your way of life.

For general adoption information, contact your local Children's Aid Society.

Migratory game bird licences

The Ministry of Natural Resources has that people who want their migratory game bird hunting licence

should do so as soon as possible, because of the possibility of a mail strike.

Bill Smiley

©The Argyle Syndicate Ltd.

Now that the hockey hysteria is over, we armchair athletes can settle into the football season, and lend our expertise, so lately freely offered to Scotty Bowman and the Canadian team, to those who really need it, like the hapless Russ Jackson and the hopeless Toronto Argos.

I must confess that I'm not as keen on football as I once was. When I was a young buck, I was crazy about it. I knew all the players in the big league, all the standings, all the records.

When I was a kid, we lived not too far from Ottawa, and I saw some of the greats in action - Dave Sprague, Bummer Stirling, Tony Golab.

When I was about 14, my big brother took me to a Grey Cup final, a classic between Winnipeg and Ottawa, with the great little Fritz Hanson, one of the first American imports, scampers around on the field like a waterbug on a pond until he was finally crushed by some huge home-brew, a behemoth like Bunny Wadsworth of the Rough Riders.

Those were the days when people went to watch football games because they loved the game, not because it was a status symbol to have a ticket, and also a great occasion for a weekend binge.

My first Grey Cup game was also my introduction to rye whiskey. I sat between two French Canadian gentlemen, knowledgeable about football. They had a mickey of rye. After a particularly great play, they'd have a polite swig each, to keep out the bitter November chill. With Gallic grace, they offered me a slug. My Methodist background and teetotal parents made me exclaim with horror. But my 14-year-old spirit of adventure made me wet my lips, with one eye on my brother. I've had a warm spot for the combination of football, French Canadian gentlemen, and rye whiskey ever since. My mother would have killed me, if she'd seen.

Nowadays, a kid like that would probably have a mickey of his own. Or worse, he'd be bludgeoned to death by some drunken woman behind him, pounding on his head a screaming: "Go, Stamps, Go!" even though she didn't know the difference between a wide end and a big bum.

In high school, I played junior, then senior football. My best friends were the jocks on the football team, rather than the academic types, the boys in the school orchestra, the members of the students' council.

Autumns were not school work. They were long months of crisp fall afternoons, tackling, running, throwing, passing. Then the hot shower, and the painful limp a mile home through an October dark, with a sprained ankle or a loose tooth. And the occasional day of glory, when we stuck it to Smiths Falls or Carleton Place, and the cheers were like manna.

In those days, there was no money for fancy uniforms and buses to out-of-town games. Most of us wore home-made pads with felt from the local felt mill. There were about half a dozen helmets for the two teams. When we played out of town, parents and teachers transported the team in their own cars. When we played at home game, every student and lots of townspeople were out to cheer. The coach was a volunteer.

Times change. In the high school in which I teach, with a student population of 1,600 (my own high school had 400), it's impossible this year, to muster two teams, senior and junior. We'll be lucky to have one. Because of education cut-backs, there's no money for buses to transport the teams. When we do have a home game, the students leave in hundreds to walk the streets, or just goof around.

It's sort of sad. Football used to be character-building, even though you wound up with a

tooth or two missing, and a gimpy knee. But if you weighed 140 and tackled some brute of 190, you knew you were on your way to being a man.

In my day, the emphasis was on offense: running, passing, trick-plays. But with the massive influx of the American game, the emphasis on defense, and television to show it all, the game has become almost dull, except for the odd brilliant outburst of speed by some guy who is being paid a phenomenal sum for his skill.

And the main idea now is "hitting." That is, the player tries to collide with an opponent with such force and in such a way, that the latter will be injured. And if it requires breaking the rules deliberately, as I've seen it done, for example, on kick returns, then go ahead. Take the penalty as long as you can "hit" and injure the kick returner when he's not set for a collision. It's dirty, dirty.

I went to university, and I played there. And I watched Joe Krol and Royal Copeland and company, and it was still great.

But after the war, the Yanks took over. Now it's mechanized. You have an "offensive and a defensive" team (we used to play 60 minutes, both ways), and the chief aim seems to be to disable the opposition.

No wonder it's losing its popularity with today's students. They are not so dumb.

One of our high school coaches revealed the new attitude. When he remonstrated with one of his rookies, "Hit'im! Hit'im!" the kid retorted: "Why should I hit him? He's my friend."

Another kid started walking off the field in the middle of a play, z'Hey! Where you going?" the coach wanted to know. The kid said: "I'm gonna have a rest."

It may not be football, and it may make coaches grind their teeth to the jawbone, but it's sanity.

Cottagers meet council over Stanhope bylaw

Objecting that they were being treated like "second class citizens" cottagers of Stanhope township were on hand Saturday at a meeting at the Stanhope Firehall to discuss a restricted area bylaw that is being prepared by Council.

The meeting was intended to inform residents of the township of the Council's progress and to ask for comments and suggestions to a planned bylaw set up by William Dolan, a planner with Totten, Sims and Hubicki Ltd., retained by the council.

Under the bylaw, according to provincial standards, existing land uses have been codified. Most of the land around the shores of the lakes has been zoned for seasonal residential use. If at any time a cottager wished to become a permanent resident, according to the bylaw he would require consent from Council or from a Committee of Adjustment that will be set up by the Council.

This means that before the owner could expect services such as school buses or snow clearance, he would have to gain approval from Council to re-zone for a permanent residence and would have to upgrade his dwelling to meet with Provincial standards for permanent homes.

The cottagers objected that they pay 85 per cent of the assessment of the township and are entitled to the same services as other ratepayers. They also objected that they had not been given sufficient time before the meeting to contact other members of their cottagers' associations, although detailed accounts of the bylaw were distributed by Council.

It was noted at the meeting that the highest percentage of cottagers that could reasonably be expected to become permanent residents is about 5 per cent. Most of this percentage would also be retired persons, eliminating the problem of school buses.

The meeting was held by Council in an effort to inform all cottagers of the steps being taken to implement some sort of controls upon the development of the region. Council members noted that they were under no obligation to call this meeting, but that they wished to maintain the good relations that have been established between seasonal residents and the council.

Some form of control is necessary, it was agreed, to protect the ecology of the lakes and to protect the finances of the township, which would have to provide increased services without

increased revenue if no measures for control existed.

The bylaw is not an official plan for the development of Stanhope, but an outline of existing land uses, that will give standards and controls to the council and to the public.

Stanhope is one of the townships in the area that has been declared by the Ministry of Housing as a planning area, so no official plan is available.

The government would like to see official plans of a large area drawn up with a restructuring of the county system as its basis. Since some townships do not agree with this proposition, the entire area cannot be planned. If no method of zoning is devised by the council, however, the province is prepared to set down a zoning bylaw of its own. The present restricted area bylaw is an attempt to avoid that situation, Napier Simpson explained on behalf of

the Council.

The outline for the bylaw as it stands is not exact to existing usages, both the council and Mr. Dolan explained. The purpose of meetings such as the one held Saturday are to receive suggestions and corrections from the ratepayers.

The matter will be under examination at the Stanhope Council's regular meeting today. When prepared, revisions of the bylaw will be circulated to all ratepayers before final adjustments are made and the matter sent to the Ontario Municipal Board.

If cottagers disagree with the actions of the council, Mr. Simpson noted, they have the option to not re-elect the same members. The bylaw is, however, considered to be a necessary and beneficial stop-gap that will serve to protect the development of the area until such time as an official plan can be devised.

Hawk Lake inquest ends

Dr. Ross Bennett, the coroner into the death of three people who were asphyxiated when they were buried in loose earth at the collapse of the Hawk Lake causeway last spring, said in the final remarks to the jury on Tuesday that the whole affair did not seem to be a case of a person contacting a doctor to do an operation, speaking to the nurse and then finding that the nurse was doing the operation, as he said earlier in the inquest. Dr. Bennett said that now it appears to him that the orderly did the operation in the end, which he said was even worse.

The crown attorney, Chris Meinhardt said that at the very least, "some qualified person should be putting his reputation on the line when this type of structure is going up." The causeway, he said, "just about built itself" according to all testimonies. He said that there seemed to be a complete withdrawal from the project on the part of Harry Bishop and Tye Irwin, and that if Jenner was to supervise the job he certainly didn't. The result, Mr. Meinhardt noted, was that Steve LeLievre was left building a complex structure without any assistance and "that shouldn't happen."

The counsellors for Mr. Irwin, Mr. Bishop, Westel Rosco and the Hawk Lake Cottager's Association also made a summary of their observations before the jury, and some made speculations as to why the culvert collapsed. Others made specific suggestions to the jury as to what their recommendations that are included in their verdict should be, and by Dr. Bennett that, as was mentioned by Gordon Atland for Harry Bishop and by David Bishop for Tye

Irwin, there should be a building code for this type of structure and building permits that specify the names of those involved and their positions as well as the details of design and construction submitted to a central authority. Dr. Bennett suggested that the Ministry of Transportation and Communications would be an obvious body to enforce this control on the building of any structure that is intended for public use.

The jurors, Dr. Bennett explained, were not to "name or blame" anyone for the collapse or the deaths, but were to report in their verdict to the best of their knowledge, why the collapse and the deaths took place.

Dr. Bennett outlined what he felt would be an adequate submission before the jury recessed. They are under no obligation to adhere to his comments.

He said that he considered that the triple fatality occurred as the result of a buckling failure of a 26 foot culvert when the trio were walking across the newly constructed culvert. It occurred, he surmised because of an inadequate design, because it was built during the winter under adverse conditions and without adequate supervision by qualified personnel.

The jury will make specific recommendations to ensure that no similar incident will be likely to occur in the future.

Mr. Atland objected that the reputation of every man on the job has been tried in the newspapers, although the inquest is not intended to establish legal responsibility. Dr. Bennett responded that he hopes that some benefit will ensue as a result of the publicity as well as a result of the jury's recommendations.

Boy Scout Apple Day was held in the snow this year. Rain or shine or snow, they were out until six o'clock. This scout was one the lucky ones who found shelter under an awning for a short while. Customers may have been cold and wet but they were still buying.

Minden News

Holiday guest with his parents Mr. and Mrs. Phil Robinson was Bradley Robinson of London, Ontario.

Winners at the Mini Card Party at the Parish Hall last Thurs. afternoon were for Bridge, Norman Taylor, cribbage Cora Hewitt and Fred Wright, for euchre Lone hands, Connie Turner and May Wright and Joe Turner. These are weekly card games and we welcome all newcomers to come out and enjoy an afternoon and we start at 1:30 sharp.

The CNIB Canvass is going on this month and if no one calls on you please phone Lorne Coburn, 286-2482 or Stuart Baker 457-2542 or 286-1921 and they will be pleased to receive your donation.

Another lucky lady at Rotary Bingo last Thurs. night won the 1st showball of \$159 in 22 numbers called. Congratulations Mrs. Fred Thorn.

Holiday guest with Mrs. Lorne Dawson included Major and Mrs. J.K. Dawson, Miss Patricia Dawson of Ottawa, Miss Muriel Dawson, Miss Brenda Jones, and John Korkoran all of Toronto.

Maxine and Oswald Snell and Peggy and Charlie Hutchinson enjoyed a Motor Trip to B.C.

Sincere sympathy goes to the families and friends of the late Gerald Waller, Mrs. Edward Peacock and Mrs. Stuart Brandon Sr. Mrs. Sara Schrikema whose funerals were since last week.

Weekend guests with Mr. and Mrs. George Davidson were Cpt. and Mrs. Bob Davidson Mike and Tracy of Ottawa Mr. and Mrs. Pete Davidson of Toronto, and Paul Davidson of Thornbury.

Mrs. Rizpah Elstone has 90th birthday

On Sept. 25th, Mrs. Rizpah Elstone celebrated her 90th birthday, with 50 of her family sitting down to a delicious dinner served by the Anglican Church Women at the home of her son and daughter in law, Harold & Frances Elstone, on Soyers Lake. It is here where Mrs. Elstone was born and lived with her parents Mr. & Mrs. Joseph Dummett until she married Edward Elstone and they moved to their home on Kashagawigamog Lake, which at that time was known as the Carson Place. They lived there for about 5 years. They moved to Haliburton, and after about 3 years, moved with their 2 sons, Clifford & Harry back to Soyers Lake and purchased the home of her parents, where she has lived since. It was here that their 4 other children were born, George, Isabella, Marvis and Harold.

Grandma Elstone as she is known to many also has 17 grandchildren, 24 great grandchildren.

Many of these came on this happy occasion from Toronto, Oxford Station, Oshawa, Brooklin, Dorset & Haliburton, also her sister in law, Mrs. Pearl Elstone from Hyland Crest Home in Minden to celebrate with her. She received plaques from the Provincial & Federal Governments along with

letters from a number of members of Parliament. Telegrams were received from relations and friends from British Columbia. England and several other areas, also numerous letters and cards of Congratulations, along with various gifts and flowers.

Mrs. Rizpah Elstone shows the plaques she has received from government officials in honor of her 90th birthday. Friends and relatives of Mrs. Elstone gathered for a party held recently in her honor.

Mrs. Rizpah Elstone is seen with friends and relatives at her 90th birthday party. Pictured are Mrs. Isabella Moody, Clifford Elstone, Harold Elstone, Mrs. Marvis Burk, George Elstone and Mrs. Elstone (seated).

Echo Editorials

Eakins earned right to column space in County Echo

We are wondering how close an election is when the provincial Progressive Conservative Candidate for Victoria Haliburton, Jim Webster submits a column titled, Queen's Park Comment.

We are not slighting Mr. Webster, and no doubt there is some merit in what he writes but still he is not an elected person. The Echo runs a column written by MPP John Eakins, who was elected in the last provincial election. The column space, at least in this newspaper is provided partly on that basis.

Mr. Eakins was elected, he is this area's representative and is involved in the workings at Queen's Park. The column space provides him the opportunity to tell the residents of the area his interpretation of what is going on at Queen's Park and is one of the

bonuses of being elected.

Mr. Webster, on the other hand, has only the graces of his party, not a mandate from the people of the area. He like every other resident of Victoria Haliburton, is represented by Mr. Eakins, until such a time that Mr. Eakins doesn't seek office or is defeated at the polls.

As far as The Echo understands no election has been called yet, which means Mr. Webster is not yet officially a political candidate.

If Mr. Webster is elected in the next provincial election he will have the same opportunity to express his views in a column in The Echo but until that time we feel that what he writes can only be judged as to its newsworthiness and not on the fact that he is a candidate.

Change municipal election procedure

Municipal elections procedures should be changed to allow cottagers near Parry Sound, Ontario to vote by mail or at remote polling stations, a government study group on local government and land use in the Parry Sound district has recommended.

The 332 page report released Monday by Darcy McKeough minister of treasury economics and intergovernmental affairs, says residents in the area need and deserve a stronger system of municipal government that is able to meet growing pressures on finances and land.

For instance in Haliburton County with its many municipalities it would mean that possibly one out of three voters doesn't live full time in the municipality.

The pressure group of cottagers could influence the whole scale of the improvement or continuation of municipal services.

To take an example of what might

happen should the cottagers feel that they want candidates elected who will reduce the tax load, they could, with the power of their joint vote elect the Mayor and most of the council.

This would mean that they could possibly have control of council. If those members they supported got elected they could halt the improvement of roads throughout the various municipalities, the reduction of parks, recreation, municipal services all in the good cause of a reduction in taxes.

It means that the whole shape of future municipal elections could be controlled by residents who live elsewhere. In this day and age with so many pressing problems the Mayor, Deputy reeve and councillors should all live in the immediate area.

If a summer resident wants to vote they should be on hand to do so on election day. We do not go along with the idea that voting privileges be mailed to non residents owners.

Welcome extended to autumn visitors

During the past few weeks hundreds of visitors have been coming back to the Highlands of Haliburton to view the coloured leaves and the beautiful countryside. In most cases the weather has been good and many people suggest that the September and October are two of the nicest months of the year. We agree.

People have been arriving in the area by cars, trucks and color tour buses. This is a great help to the economy at this time of the year and these visitors spend money at the local restaurants and business establishments.

During the past few weeks we have

noticed several color tour buses travelling throughout the Highlands to view the scenery.

The two most interesting spots as far as the visitors are concerned are at Skyline Park and Haliburton and at Panorama Park in Minden. These two tourist attractions are a must if you are considering a fall visit into the Highlands. We remind you that there are also many other beautiful places to see when you are here.

We welcome all of the fall visitors to the Highlands of Haliburton and we hope that you will enjoy yourselves and will return in the near future.

As others see it

Dear Mr. Jim Badgley,

In answer to your article of September 15th regarding the booing of French announcements at the Maple Leaf Gardens - I would like to make a few comments, if you will kindly allow me space in the Echo to do so.

I am an English speaking person who lives in Quebec. Perhaps it is time the people in the rest of Canada were informed as to how things look from where I sit.

There was a time when I too was in favour of bilingualism and I proved it by trying to learn the French language - but now my back is up and I would gladly have joined in the booing had I been presented with the opportunity.

Why? The answer is simple. While the government has done everything necessary to insure the French language in every province in Canada; we in Quebec have had all our linguistic rights taken away. (I am speaking of both French and English). Neither of us is free to choose the language of our child's teaching at school.

If I write to the government for any reason, my answer is returned in French, whether I understand it or not. Is that Bilingualism?

You will tell me Canada has two official languages. I will tell you that Quebec has only

one and that language is not English. I am a second class citizen in my own country. Is that not worth booing? If I were not such a peace loving individual I would do much more than boo.

Sir, a house divided cannot stand. Neither can a country divided progress. Sooner or later there will be a war between the French and the English. You can be sure it won't happen until the French are sure of victory.

A frustrated Canadian,
Mrs. Doreen E. Clode

Dear Sir,

While on a recent visit to England, we had lunch at the White Horse Inn, Chatham, operated by Mr. A.R. Gooderham.

This gentleman told us that ancestors of his had immigrated to Canada in the past and he had reason to believe, been in some way connected with the establishment of the Village of Gooderham in Ontario.

I would be interested to know if you or any of your readers can give me information on the founding of this village, so that I may inform Mr. Gooderham accordingly.

Yours truly,

Eric G. Coumbs.

Lord, thou knowest better that I know myself that I am growing older and will some day be old.

Keep me from the fatal habit of thinking must say something on every subject and on every occasion. Release me from having to try to straighten out everybody's affairs. Make me thoughtful but not moody; helpful but not bossy; with my vast wisdom, it seems a pity not to use it all - but thou knowest, Lord, that I want a few friends.

Keep my mind free from the recital of needless details - give me wings to get to the point. Seal my lips on aches and pains. They are increasing and love of rehearsing them is becoming sweeter as the years go by. I dare not ask for grace enough to enjoy the tales of others' pains but help me endure them with patience.

I dare not ask for improved memory, but for a growing humility and a lessening cocksureness when my memory seems to clash with the memory of theirs. Teach me the glorious lesson that occasionally I may be mistaken.

Keep me reasonably sweet; I do not want to be a saint. Some of them are hard to live with - but a sour old person is one of the crowning works of the devil. Give me the ability to see things in unexpected places and talents in unexpected people. Give me the grace to tell them so. Amen.

Editor's notebook

BY JIM BADGLEY

It is getting very difficult for me to understand the education system in Ontario and just why it costs so much. We here the universities tell us that students they get from the high school system aren't as well trained as they used to be, that the standards aren't quite as high.

Yet we see the universities accepting these so called untrained students to, as a friend of mine said, "keep the enrollments up".

A great deal of the funding of post secondary institutions is based on a per student basis, which means more money for the universities for extra student jammed into a lecture.

This is fine that a university education is not out of reach of a great segment of our population but it should be made clear to all of these students that university is a very personal learning experience and in many ways only personally benefitting the rest of your life.

Having a general BA does not qualify you for many jobs unless you want to be a school teacher

and even those jobs are getting harder and harder to be on the decline.

Not everyone is intended to go to university, in fact a very small part of our population should be capable.

Our tax dollars go a long way to financing universities, a very long way in fact and we could be at the point where we just cannot afford it anymore. If a person isn't cut out in a certain mold that will make them understand and benefit from university work to its fullest then he shouldn't be there.

I for one do not like subsidising a person's post secondary education when I hear these lines, "It beats working" or "what else could I do with just grade 13." There are probably lots of things that could be done instead of going to university.

The days of giving everyone this so called tremendous education are numbered. At least they had better be numbered. I for one as a taxpayer cannot afford the high cost of education in its present form and it is doubtful we will

stand for it much longer.

The importance of education has to be weighed carefully in future years.

First we are told that the swine flu could be very dangerous, then we are told that in all likelihood it is being overrated, now we find that Haliburton and Victoria counties might not get immunized whether it is dangerous or not.

Now labor disputes are getting out of hand and out of hand to such an extent that the people are really suffering.

Somehow these problems will have to stop and as soon as possible. Whether the swine flu is dangerous or not is not the question now. The taxpayers have set up a program or at least funded the setting up of the immunization program and could possibly not see any results now.

From the Chamber

by Bob Stinson

The Annual Dinner Meeting of the Chamber can be described in one word - "Success". It was not only a success as a function but it reflected the success of the Chamber in the past year. Tickets were sold out completely and we sincerely regretted having to turn away a number of members who asked for them at the last minute.

The Directors were pleased to make two special presentations to very deserving people. A lifetime Honorary membership was presented to Marion Arntfield who has dedicated many years to the efforts of the Chamber and on two occasions filled in as acting manager. Those who have been connected with the Chamber for any length of time were certainly pleased to see Marion recognized in this manner. Roy Bates was the popular recipient of the HIGHLANDER of the YEAR AWARD. Roy in accepting his award was pleased to be able to announce that the Whitney Trail will remain open for at least one more season. This concession was made as a result of a considerable amount of work by Roy and the Snowmobile Association.

The slate of Directors as presented by the nominating committee was accepted in its entirety. Eight of the nine active directors stood for re-election, with Bob Bishop Sr. being the single resignation. Bob plans to be away a great deal this year and felt he could not devote the time the position deserved. He has been a great deal of help in the past and will be missed. Four new directors now bring the board up to a full complement. We are pleased to welcome to the board, Peter Preistman who recently purchased the Terrace Inn at Wilberforce, Norm Healey, retired Insurance executive, Marshall Leighton, well known realtor, and Bob Mann who will shortly be opening the Highlands Printing and Publishing plant near Carnarvon. The board will meet this week and select their executive for the coming year.

The most encouraging thing about this meeting was the atmosphere that was apparent. Negative comments were completely absent and we sensed a very real feeling of optimism for the future of the Chamber and our business community. We will certainly be doing everything possible to be deserving of the faith the membership is now showing in our organization.

It was announced at the meeting that both the community Birthday Calendar and the Elimination Draw have been postponed. There is therefore still time to participate in the calendar programme which we had previously announced would have a deadline of October 1st. The Elimination Draw Dance is now scheduled for Dec. 11th - but don't wait - only 150 tickets will be sold and we don't want you to be disappointed. All Directors have tickets available now. For only \$20.00 you have a chance at a \$1,000.00 prize plus many others, and the ticket also admits one couple to the dance at which the drawing is held. The group known as the "Spectrums" have been booked for the dance. This group gained considerable acclaim at the Gooderham Horseshoe Day ball.

Thanksgiving signifies the end of another season and of course what else could we expect from the weather man after the type of summer we had. On Saturday we had quite a number of tourists braving the snow and looking for accommodations. We seem to have a hardy breed of tourists in this area - and it's a good thing.

Brownies suffer some kind of gas poisoning

The Ministry of Consumer and Commercial Relations, Energy Branch, from Peterborough, a representative of Superior Propane and the OPP are involved in an investigation into some form of gas poisoning that was suffered by a group of Brownies and their leader on September 25 at the South Lake Lodge.

Sandra Weatherhead 8, Brenda Harbaruk 8, Kimberly Wakeford, 10, Lorna Anderson 9, Christian Langdale 8, Pamela Barrett 9 and Carole Harbaruk 33, all from the Unionville area were treated by Dr. Brady of Minden and were released.

It is believed that the poisoning was caused by a propane heater and it was first reported as carbon monoxide poisoning. Carbon monoxide is not, however, a product of propane when it burns. The products are water and carbon dioxide.

The other possibility that is being considered is that the room was airtight and the group suffered from oxygen starvation but this is not thought to be a likely solution.

The investigation has not reached any conclusions as yet.

Whitney Trail open

from page 1

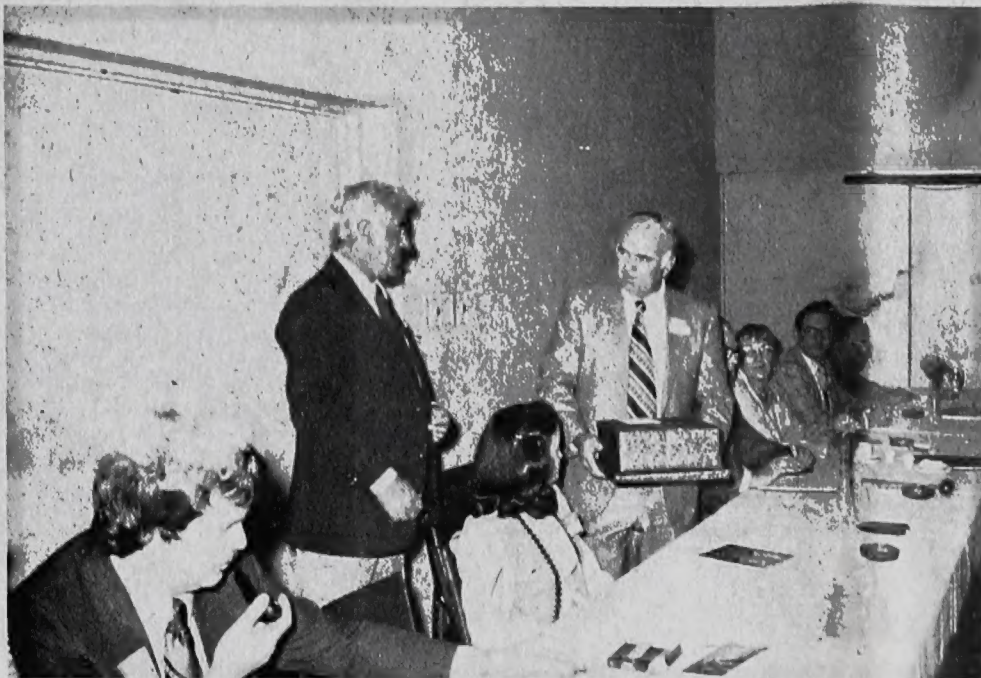

manager of the Haliburton County Chamber of Commerce also attended and began with the announcement that the Trail would remain open to snowmobilers this winter. He will be submitting a recommendation to the Minister of Natural Resources, he said, to suggest that the matter be referred to the Parks Advisory Council in Toronto.

A permanent decision will be made by the Ministry after hearing the recommendations of the Advisory Council.

This Council is a public organization that will gather briefs and information from all interested parties and can then advise the Ministry on a course of action compatible with all the associations who have an interest in the condition and use of the park.

The Whitney Trail follows the hydro line that cuts through the Park and provides a direct link between

the two snowmobiling communities of Haliburton and Whitney. It is of economic value to both centres and makes a return trip between the two possible in a day. Dysart Reeve Murray Fearrey commented at the forum held on September 27 that closure of the trail would be equal to putting a sign on Highway 35: "Don't come to Haliburton," and would be a definite economic loss to the area.

A large crowd attended the Lindsay-Haliburton Real Estate Board annual meeting recently. From left to right are Lynn Craigmyle, first vice president; Roy Boughner, director and Mr. and Mrs. George Hamilton.

Real Estate Board annual meeting

Attendance records were almost shattered at the inaugural Fall Meeting of the Lindsay-Haliburton Real Estate Board held at the Pinestone Inn on Tuesday September 28th.

The meeting, conducted by President Ken Sangster, attracted many new and regular members from Lindsay, Bobcaygeon, Fenelon Falls, Cobourg, Cameron, Minden and Haliburton.

Following the introduction of head table and all present, Jack Jackson introduced the speaker of the evening, Mr. George Hamilton of the Leslie M. Frost Resources Center. Mr. Hamilton gave a brief outline of the success the Center has enjoyed since its inception in 1976 in accommodating over 8,000 students who stay an average of three days. Their program covers all facets of the history of development and the impact it has had on our lakes over a prolonged period. He explained the position of the government regarding the development of the lake country and supported his talk with an interesting slide presentation which gave a vivid and dramatic account of the evolution of environmental problems brought about by the rush of Ontario residents to the lakes since World War II. He went on to explain one area of our province where the lake trout became extinct in 19 lakes with drastic measures being taken to prevent the demise of the same species

in another 30 lakes that are already showing signs of deterioration.

Roy Boughner extended a vote of thanks from the Board and presented gifts to both George and his wife as a token of appreciation.

The Pinestone Inn, Innkeeper At Ward, and the staff were complimented many times for the fine food and excellent service in the congenial atmosphere of this outstanding addition to Haliburton's way of saying "Please Come Back."

Report from Queen's Park

by MPP John Eakins

The main issues under discussion during the first year of this Legislature were connected with inflation and the Ontario Government's restraint programme. These have tended to overshadow other matters.

Over the past twelve months, considerable attention has been focused on "law and order". The Ombudsman ordered an investigation of prison conditions, and the Attorney-General announced a crack-down on hockey game violence and people who drink and drive. An all-party Select Committee was established to consider over-all questions of highway safety, accident prevention and driver education, with special reference to alcohol-related driving offences, particularly by young people. Driver licences, with a photograph of the individual driver, were mentioned as a possibility. A bill to control rowdism in Provincial Parks has been introduced, and the anticipated reduction in the number of beach patrols did not take place.

The Government's long-awaited Farm Income Stabilization Plan was totally inadequate and unacceptable to Opposition Parties, who directed the Government to introduce improved legislation by the end of October.

Many Ontario communities were ordered to shut-down their arenas because of structural defects. Eventually some help was forthcoming in this connection, through Wintario and a grant of 25 per cent of total cost of repairs and replacement under the Community Recreation Centres Act.

Legislation was passed making the wearing of seat-belts mandatory, and speed limits were reduced, to 60 m.p.h. on expressways, 50 m.p.h. on other highways. In May the Government announced these measures had saved about one life a day since introduction.

There has been much discussion of possibly energy supply shortages and price increases. In November, we were informed home-heating bills were expected to increase 13 per cent to 29 per cent. Ontario's Energy Minister condemned federal energy strategy, but both Opposition Parties condemned his alternative "blended" oil price. The Legislature's Committee studying Hydro's 1976 rates predicted an increase of 34.5 per cent in the cost of producing electric power next year.

In connection with the Province's housing needs, the present Minister described the Government's \$1,500 grant to first-time home buyers a "gross error", because no income ceilings were imposed for eligibility purposes. Legislation was passed limiting rent increases (except for rent-geared-to-income units) to 8 per cent for at least a year, and requiring landlords

to justify termination of leases. New home warranty legislation is intended to protect new house buyers against shoddy workmanship and materials.

In the area of pollution, and as a result of Opposition pressure United Asbestos in Matachewan was ordered to close because of unsafe asbestos-fibre readings, smelter lead emissions are to be controlled, and stringent limits are to be enforced for vinyl chloride pollution in industrial plants. Ontario is to study the effects of mercury-contaminated fish on the health of two Kenora-area Indian bands, if the Indians agree. The Government has initiated courses to train government inspectors in the detection of potential health hazards from air and noise pollution.

The Minister of Colleges announced increased fees for "new foreign" students at colleges and universities. He also admitted that some community colleges had large investment portfolios. In his view, industrial training needs are not being met in Ontario and a new Industrial Training Council is to advise the Government about this problem.

More judges were hired to alleviate the backlog of cases in our courts, and a Blind Persons Act would permit blind people to take their seeing eye dogs into restaurants and public places. Proposed changes in the estates law would give property rights to common law wives.

The Ontario Food Council is to be expanded in its research and public information functions; anyone selling meat for human consumption from animals which had died from causes other than slaughtering risks suspension or loss of licence; a Consumer Warranty Bill has been introduced, but there will be delay in implementation until other provinces introduce similar legislation; there are now guidelines giving Ontario women the same access to credit as men.

The Premier indicated the Government does not intend to resurrect proposals for a new federal airport in Pickering. Meanwhile there has been a long-drawn-out dispute, featuring Housing Minister John Rhodes and the Ombudsman, on the subject of expropriated property in the area.

We also learned that virtually anyone can purchase up to 100 pounds in dynamite at a local hardware store or other licensed outlet; that the Government is collecting information on electrically-powered cars and has spent some \$6 million on preliminary designs for a successor to the ill-fated Krauss-Maffei magnetic cushion train.

See you next week.

County sports

By Jim Badgley

The change in weather also brings a change in the sports season, a change for the better for most sports enthusiasts.

Now is the time of the year we have a little bit of everything, baseball, football and hockey. The softball season might have come to an end some time ago in Haliburton County but we can still turn on the tube and pick up major league baseball.

Both the Canadian Football League and the National Football League are in full swing giving that autumn sports fan plenty of action. Football fans in the area, who find it a little far to drive to Toronto to watch the Argos fumble the ball all over the field could find the action just as good out at the high school with the local squad looking to pick up a few wins.

Hockey action looks like it will be good on all levels, we will all get in enough television action with the Toronto Maple Leafs and Montreal Canadiens.

But there is also the local action, all the way from the five and six year old players in the youngest league up the Huskies in the Junior D ranks.

Speculation around town is that the Huskies could have a good season. Two exhibition tilts some time ago against Bancroft could be a good measuring stick for the type of action we will be seeing at the arena this year.

The Huskies took both games and scored a lot of goals in the process. Goal scoring is what I pay to get into an arena to see and I hope to see plenty this season. A 0-0 hockey game to some might be exciting but for myself a 10-9 game is the ultimate. That type of scoring might not be great for the goaltenders but is sure will keep the fans on the edge of their seats.

This brings us to another story, that defense is playing too big a part in sports. Defense has always been the most boring part of any sporting event. No doubt it is necessary but not quite to the extent we see it now. There is an old saying, "the best defense is a good offence" and no doubt, for the benefit of the spectators this is true.

For those of you like me let's hope for lots of action over the season, by action I mean great scoring plays. For the fans of a strong defense perhaps my favorite teams will shut your's out a few times during the season and show you what good defense is.

Echo Sports

Minden demolition derby

The Kinsmen held a Demolition Derby on Saturday that was extremely successful. One of the drivers said that it was the best he'd been in yet this year, and it was all done with only two weeks of preparation by the Kinsmen. They promise that it will be a yearly event with more improvements as time goes on.

There were about 400 spectators the the Minden Community Centre to watch the crashes and smashed, despite the snow. The Kinsmen took in a gross of \$460.

The winners out of the 17 who entered were the last ones to be on the field at the Community Centre after the rest had been put out of commission. In the first

heat, Brian Hannivan of Kawartha Garage was the last to be driving. Gord Foster was second and Larry Kent third.

The winners of the second heat were: first, Stuart Manley; second Dave Conrad of Suggitt Auto Parts and third, Jim Schlosser, Minden Rent-All.

In the feature heat Brian

Hannivan of Kawartha Garage placed first, with Dave Conrad in second and Larry Kent in third place.

Five entries battled it out for the first place position in the Powder Puff Derby, held for the first time. Brenda Liscombe of Kawartha Garage won, with Marg Prentice taking second and Jean Hannivan of Kawartha Garage placing third.

Huskies open camp

Tryouts for the Haliburton Huskies start this Monday at 8 p.m. Anyone interested in trying out for the team is asked to be at the arena at that time. Contact Craig Stamp for further details.

Chamber honors two residents

Two Haliburton residents were honoured with County wide awards Oct. 6 at the annual meeting of the Haliburton County Chamber of Commerce. Both awards were initiated just this year and both were given to very deserving recipients.

The first award was an honorary life time membership to the chamber that was given to Mrs. Marion Arntfield of Haliburton, who has supported the Chamber since its inception and was one of the founding members.

She and her husband first

began a business in the area in 1949. Mrs. Arntfield continued on her own after her husband's death until her recent retirement. She helped Bob Stinson a great deal when he was new to the Chamber and its management, and has always given unselfishly of her time and ability.

Mrs. Arntfield received the award, a large plaque that will be passed on to other recipients and a smaller one that she will keep, with many thanks. She made only a short speech to express her gratitude and received warm applause.

Mrs. Arntfield said later that retirement only means

that now she has more time for the service clubs and works in which she is still very much involved.

Hylander of the year was the name of the second new award to be granted this year. The winner was Roy Bates of Haliburton. This award is not intended for anyone who has been involved in the front ranks of the Chamber, but for a member who has been involved in the background and who has benefited the area through his or her own efforts.

Mr. Bates was the first paid member of the Haliburton County Snowmobile

Association, and is now its Secretary after two years as president. He has also been for two years a director of the Ontario Association of Snowmobile Clubs. In response to the award Mr. Bates was able to inform the gathering that the Whitney Trail through Algonquin Park would be reopened for this season as a result of a meeting which Mr. Bates had attended that morning and had helped to organize.

Mr. Bates also received a plaque with an inscription to keep, as well as having his name inscribed on the large plaque on which future names will be recorded.

There were more than 160 members of the Chamber of Commerce present for the annual meeting, which was held at the new PineStone Inn. Dining and dancing made up most of the evening, and the presentation of the awards at the end of a short business meeting made the whole affair very enjoyable.

Single car crash injures driver

Bryan H. Robertson, 24, of Haliburton received cuts

and bruises when the car he was driving rolled over in a ditch early Saturday morning.

The accident took place on Highway 121, just west of Haliburton.

There was \$2,000 damage to the Robertson vehicle. Robertson has been charged with careless driving.

Charge local man with theft

Brian Daniel Nunn, 18, of Haliburton, has been charged with break enter and theft as the result of an investigation carried out by the Minden detachment of the Ontario Provincial Police.

A chain saw and sleeping bag have been recovered.

Detachment investigates 10 accidents

The Minden Detachment of the Ontario Provincial Police investigated 10 motor vehicle collisions and 66 general occurrences between Oct. 4 and 10.

There were seven break-ins investigated and six compassionate messages delivered. The detachment cruisers logged 5,854 miles during the week.

On sale right now wherever you bank or invest.

For over 30 years Canada Savings Bonds have been the most popular investment in Canada. Literally millions of Canadians have used Canada Savings Bonds as a way to build a solid financial base.

They're simple, straightforward and easy to understand.

They're a great way to save. Here's why.

Security.

Canada Savings Bonds are secure because they're backed by all the resources of Canada.

Income.

They pay good income, an average annual interest to maturity in 1985 of 9.13%. Each \$100 bond begins with \$8.50 interest the first year and then pays \$9.25 interest for each of the remaining 8 years.

Flexibility.

They're flexible, because you can buy Canada Savings Bonds in various denominations, for cash or on instalments wherever you bank or invest. And they're cashable anytime, at their full face value plus earned interest. This year, the purchase limit has been set at \$15,000.

Two Kinds.

A. Fully registered bonds. These bonds are registered as to both principal and interest. The interest is sent to you automatically by cheque each year on November 1st. They are available in denominations of \$500, \$1,000 and \$5,000.

B. Coupon bonds. These bonds are registered as to principal and have annual interest coupons payable to bearer. They are available in denominations of \$50, \$100, \$500, \$1,000 and \$5,000.

Canada Savings Bonds 9.13%
Average Annual Interest to Maturity

A great way to save!

Introducing the greatest aid to litter prevention since the refillable pop bottle.

The refillable pop bottle.

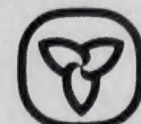

Remember the days when all pop bottles were returnable and refillable? Your Ontario Ministry of the Environment wants to bring those days back, because there were a lot of advantages to the refillables.

Their re-use saved energy and raw materials involved in bottle manufacture. And, more important, people returned refillable bottles. So they didn't become the litter and garbage disposal problem that throwaway bottles and cans are causing today.

On October 1, 1976 a new law went into effect. It says that within six months, retail vendors will be required to stock and display in refillable bottles any size, flavour and brand of soft drink they offer in non-refillable bottles.

In other words they have to offer you a choice. It also requires that retailers selling soft drinks in refillable bottles must now accept and refund cash deposits of at least 10¢ on small sizes and 20¢ on large sizes. And the amounts of these deposits must be shown separately from the actual price of the pop.

Your Ministry of the Environment thinks that a return to refillable bottles will save energy, help alleviate garbage disposal problems, and reduce the number of landfill sites. It will be a step toward a clean, uncluttered Ontario.

Ministry of the Environment

Ontario

Hon. George A. Kerr, Q.C. Minister
Everett Biggs, Deputy Minister

Notice to Ontario Retailers

Effective October 1, 1976, you will be required to accept deposits on refillable soft drink containers of 10¢ on small sizes and 20¢ on large sizes. You will also be required to refund deposits in these amounts on all reasonably clean,

intact, refillable soft drink containers which you normally handle.

This information is covered in a notice which must be displayed by soft drink retail vendors. These signs are provided by the Ministry of the Environment and are available at our offices in these locations: Barrie, Belleville, Cambridge, Cornwall,

Don Mills, Gravenhurst, Kenora, Kingston, London, North Bay, Oakville, Owen Sound, Ottawa, Pembroke, Peterborough, Sarnia, Sault Ste. Marie, Stoney Creek, Sudbury, Thunder Bay, Timmins, Welland and Windsor or by writing or phoning: Environment Ontario 135 St. Clair Ave., West Toronto, Ontario M4V 1P5 Telephone: (416) 965-1658

DEPOSIT REFUND FOR REFILLABLE SOFT DRINK BOTTLES

Regulations of the Province of Ontario under the Environmental Protection Act provide that a cash refund of the full deposit will be paid for up to 48 intact and reasonably clean refillable containers in any 24-hour period of a brand and flavour of carbonated soft drink sold here in containers of the same size within the preceding six months.

LIP grants

A new release from William Scott, MP Victoria, Haliburton stated at Federal constituency allocations for the 1976-77 Local Initiative Program (LIP) - totalling \$89.1 million were announced by Manpower and Immigration Minister Bud Cullen.

* Allocations are based on an estimated unemployment rate for each constituency, and the totals by province are as follows: Newfoundland \$7,718,000; Prince Edward Island \$1,638,000; Nova Scotia \$3,707,000; New Brunswick \$7,701,000; Quebec \$28,991,000; Ontario \$16,305,000; Manitoba \$2,449,000; Saskatchewan \$1,784,000; Alberta \$1,798,000; British Columbia \$16,171,000. The Northwest Territories has been allocated \$535,000 and the Yukon \$303,000.

Now in its sixth year of operation, LIP is designed to create jobs during peak times of seasonal unemployment in Canadian communities. This year's program is expected to produce over 20,000 extra jobs this winter.

Allocations are based on the unemployment estimates for each constituency. The department derives these estimates using 1971 Census data, the monthly Labour Force Survey and CMC statistics. Each constituency

is guaranteed \$75,000. The remaining funds are then distributed to the constituencies in proportion to the number of unemployment exceeded seven per cent of the labour force, but ensuring that no constituency receives less than one-third of last year's allocation.

In the Yukon and Northwest Territories, there are no labour force and unemployment estimates and therefore, these allocations are the same proportion of the total budget as last year.

Northwest Territories .60 per cent and the Yukon .34 per cent.

from page 3

out you could literally see for miles. Then on towards Parry Sound, the winding sometimes bumpy highway was bordered by trees of all colours. We reached Parry Sound in noon hour, to enjoy the dinner catered by St. James Centennial United Church Ladies. This was certainly grand, and tasty and we enjoyed it the more as we were a few minutes late. During our meal, you guessed it, down came the rain, but the ladies braved this to do their shopping in the grand stores, and all were back on the bus in good time. Then a short stop in Bracebridge, and home by the Vankougnett Road. In spite of the rainy weather, our eyes were really tired from this Colourful Tour, and a break before the winter comes.

Fronting on a Township Road with an excellent view of Countryside. Excellent development property. Contact John Parish at 457-2161 or 457-2986.

SMALL ACREAGES
All with Township Road frontages in Blairhampton and Twelve Mile Lake areas. Varying sizes from 10 to 40 acres. Excellent building sites. Contact Frank Anderson at 457-2161 or 457-2534.

Park Superintendent Simpson and other Ministry officials, the HCSA accepted on behalf of the County, a proposal to recommend a full study of the issue by the Ontario Parks Advisory Council who will in due time, set up a public hearing at which the many interested organizations and individuals will have opportunity to be heard. We expect the study will take a little time, perhaps several years. Meanwhile, the trail remains open to us.

Our next move will be to assure that the Advisory Council gets all the pertinent data from our side of the issue. The studies made in other parks and national forests, particularly in the U.S.A., provide much indisputable evidence that snowmobiles are not harmful in such areas. Snowmobiles have been greatly improved since the Park policy was written in 1968 and '69. Noise levels have been reduced drastically, and still going down. The trend to better trails has moved snowmobile operation away from the residential areas thus removing the nuisance factor, and better snowmobiler education has increased the operators' awareness of

environmental and ecological concerns.

A measure of the way snowmobiles and snowmobilers have been accepted in the community can be taken from the files of community newspapers of the past six or seven years. Remember the Letters to the Editor in those early days? Every week of the snowmobiling season brought to light another severe criticism of the sport. Much of the criticism was unwarranted, stemming from the subconscious instinct to protect the status quo - the "if you can't join 'em, fight 'em" syndrome - but there were, occasionally legitimate beliefs. I cannot recall a single letter critical of snowmobiles in any County newspaper in the last year. This is because the beefs were met and the problems corrected, unwarranted criticism was countered with factual statements and gradually the editorial policies of newspapers swung to the support of snowmobile clubs and other snowmobiler organizations.

This complete reversal of attitude was most evident when the entire county came to the aid of the Haliburton County Snowmobile Association in the Whitney Trail issue. The past few weeks

will go down in history as the most eventful period in the life of the Association. We have won the first

round, and we have won the universal support of an entire county. We can only go forward from here.

"The Greatest Thing in the World in Love"

In this quotation I am not referring to an "aching of the heart that cannot be scratched", but rather to the giving of oneself in helping others.

The "older boys and girls" are still playing and exercising under Miriam Lewis direction.

The Rev. John Smith, of the Baptist Church, gave a very interesting illustrated talk on Rome, Turkey and Lebanon. Some day he will return to give a similar talk on the Holy Land.

A search for beauty - On Wednesday Miriam Lewis took us out in the bus to see the coloured leaves. The weather was a little misty, which meant that the leaves were not as bright and colourful as they would have been had the sun been shining. It was a change and good outing.

In the search for beauty, one wonders whether society is doing enough to kindle and develop amongst our children the aesthetic side of life. How successful are we in stimulating an appreciation of all that's beautiful in art, literature, music and nature, including man? We spend a lot of time developing the body, training the mind, providing social activities but not so much in developing the cultural and feeling side of life. Someone has said that in the final analysis it is the heart that decided. When I see men retiring who do not know what to do with themselves, I ask myself the question "what went wrong?" It is a fact that one half of life is a closed book to many people.

In my last column I intended to say that nothing denotes a persons character quite as much as what they do in their spare time.

On Friday the Devotional Period was taken by Pastor Glen Rosch of the Full Gospel Lighthouse. The theme of his talk was Thanksgiving. All of

us, he said, had something for which to be thankful. His talented daughter, Sandra, officiated at the piano and closed the period with prayer.

Extendicare celebrated Thanksgiving with a nice turkey dinner and all the trimmings on Sunday afternoon.

During the week both Miss Elston and Mrs. Lewis were away for a day or two learning how to serve us better.

Extendicare is opening another Nursing Home in Toronto during October. It is three stories high and is situated at Kennedy and Ellsmere Road.

We greatly appreciate the help given by Ezra Lott in assisting Laverne Barry with the erection of the cedar rail fence.

I am indebted to Mrs. Donna Dillon for her invaluable help in getting out this column, without her help it would not be possible. As Secretary of Extendicare, Mrs. Dillon plays the role of the postman and while down town cheerfully attends to 101 odd requests made by, the staff and the residents.

"ABOUT THE BEST WAY TO GROW OLD IS NOT TO BE IN TOO MUCH OF A HURRY ABOUT IT."

Township of Snowdon

Auditor's Report

To the Members of Council, Inhabitants and Ratepayers of the Corporation of the Township of Snowdon.

We have examined the 1975 financial statements of the Corporation of the Township of Snowdon. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation of the Township of Snowdon as at December 31, 1975 and the results of its operations for the year then ended, in accordance with accounting principles generally accepted for Ontario municipalities applied on a basis consistent with that of the preceding year.

Peterborough, Ontario.

Highlands' Gideons hold second banquet

The second annual banquet sponsored by the Haliburton Highlands Gideons was marked by intense interest to help our Quebec neighbours to enjoy the Word of God. Since the sole purpose of Gideon fellowship is to place the Scriptures into the hands of all who will receive them, the open door of Quebec brought a new challenge for distribution of the Living Word in that part of our Dominion.

The bounteous supper provided by the Legion auxiliary was the beginning of an evening of fruitful

fellowship. Local young people provided the special music and a hearty Gospel sing-song was enjoyed by all present. Head table was represented by our provincial and federal members of parliament and encouraging words given by their brief remarks. The co-operation of the local Board of Education is much appreciated by the Gideons and they were also represented on this banquet occasion. The speaker of the evening was Mr. Walter Sprague of Dipper Harbour, New Brunswick. He gave a challenging address on our privileges and opportuni-

ties to place the "Unchanging Word" where people can read it for themselves and let it speak for itself. The result is not of man but of God who gave it. The offering received at the close of the banquet will send three thousand Scriptures to our Quebec neighbours. The local Gideons are deeply grateful to all who give their help to them by private contributions, use of the Memorial Bible Palm, the Sow Plan for special occasions or any other help in their task of making Scriptures available to all and in all places.

Gems of Truth

The New Testament Scriptures uniformly predict that the last days of the present Church age shall be keenly noted for a falling away from the faith, which shall reach its climax in the appearing of the "man of sin", also known as the "lawless one", the "son of perdition" and otherwise known as the "antichrist". The last days spoken of in the New Testament Scriptures are predicted to be "perilous" times, and from a careful study of the Scriptures it is very evident and clear that they will also be crisis days.

That those days have already been foretold is clearly seen by the discerning mind. Observation demonstrates the fact that the great and manifold problems of the world are hinged on the appearing of the "lawless one" as forewarned by Holy Writ. Great and tremendous issues are pending and a grave responsibility is resting upon God's people. Satan's hatred toward the Lord Jesus Christ is shown in these days as never before, so that the true servants of God are found in the midst of dire peril and surrounded by solemn and important issues which one dare not trifle with or scorn. Each and every child of God should earnestly seek to know and understand the drift of the times in which we are living, as well as the tremendous issues involved. Whether is professing Christendom drifting?

It is very evident that the whole purpose of modern criticism in its attempt to destroy the Divine inspiration authenticity, and authority of the Scripture is, the rejection and repudiation of the Christ of Scripture. The Eternal Son of God, the Redeeming Saviour, the Exalted Lord and the coming Glorious and Reigning King is sadly by-passed in the drift of modern thinking. From the very beginning of his career, "satan" also known as the "devil" has vigorously opposed the purpose of God concerning human redemption through Christ Jesus.

Every attack upon the line of the "Seed", every attack upon the Scriptures, all down through the ages, has been to this end and has been the work of "satan" the great adversary. The Lord Jesus Himself revealed the true intent of the "devil" when He proclaimed that "he was a murderer from the beginning and abode not in the truth, because there is not truth in him. When he speaketh a lie, he speaketh of his own; for he is a liar and the father of it." John 8:44

According to the words of the Lord Jesus, the devil was the first sinner in the universe and also the first apostate or one who forsakes truth. The devil is also a murderer and a liar. Jesus says he was a murderer from the beginning, that is, from the "beginning of the human race." Perhaps we should remember that when the Lord Jesus uttered these words about the devil, that the Jewish leaders of His day were seeking to kill Christ. His words to them were, "but now ye seek to kill me, a man that hath told you the truth." John 8:40. In their murderous attitude toward the Lord Jesus, the Jews were inspired and driven by the "devil", as Jesus plainly told them, saying, "Ye are of your father the devil, and the lusts of your father ye will do." verse 44

This is indeed a strong declaration! The Jews were unbelieving and hateful and Jesus pinpointed this as being children of the devil even though they professed to be children of God, verses 37-39. Their murderous intent was but the expression of the devil's hatred against Christ to which they were inspired by him, because they had yielded to his control.

The devil is the "murderer" in the broad sense, in that all death came through him, but he is the murderer in the strictest sense, in that He is the "father of lies" in the broad sense in that all insinuations against God and His Word arise from him and are inspired by him, but he is the "father of lies" in the strictest sense in that the "lie" of the coming "lawless one" finds its inspiration in him and will be the utter rejection of Christ and the Truth. The devil is the "murderer" because he sought to murder Christ and did so in the end. The lie was the cause of the murder; it was the denial of Christ and therefore led to His rejection and death. Of the coming "lawless one" a clear description of him is given in second Thessalonians chapter two. In this inspired revelation of days at our door step we come face to face with the real issue of satan's hatred of our Lord Jesus Christ.

IN MEMORIAM

STAMP - In loving memory of our dear mother, Ethel Louise, who passed away October 12, 1963 and dear father Everett, July 8, 1970.

No farther away than a picture.
A smile or remembered phrase.
Our dear parents live in memory
So close in so many ways.
For how often does the sunset,
Bring memories to our minds,
Of moments that we shared
with them
In days now left behind.
How often has a flower or a crystal autumn sky,
Brought golden recollections
of happy days gone by.
Yes, memory has a magic way.
Of keeping loved ones near.
Ever close to mind & heart.
Are the ones we hold most dear.

Forever loved, forever missed by daughter Hazel, son-in-law Jack and Granddaughters Kathy, Debbie.

In Memoriam

STAMP - In loving memory of my dear son, Leon, who passed away on October 12, 1973.

Three long years have passed away since God took you home.
Three long years I have been here alone.
I visit your grave dear and you talk to me in wind and rain.
And I hear you softly say don't cry dear, some day we will meet again.

He came and stood beside you and whispered "Come and rest"
When evening shades are falling and I sit in quiet alone.
To my heart there comes a longing if he only could come home.
How I miss that dear voice I loved to hear
But a whispered prayer when I need you most seems to bring you near.
Keep him Jesus in Thy keeping
Until I reach that golden shore.

Then dear Saviour please let me have him and love him as I did before.
Dear God please take a message to my dear son in Heaven above.
Tell him how much I miss him and give him all my love.
As I journey towards life's sunset at the close of another day
I see the stars shining on a grave not far away.
Where rests the one I loved so dearly but could not save.
I cry dear and think of you and see you in my sleep.
It is not right for me to cry nor question God His Will
So Leon dear, please explain to him it's because I love you still.
God knows how much I miss you, never shall your memory fade.
Thank you dear for your love and kindness.
God needed a new star in Heaven a beautiful light to shine.
So out of this old world of sorrow
He chose that dear son of mine.
Good night Leon dear.
Always remembered and sadly missed by mother, Hazel, Jack, Kathy, Debbie Irvine.

McNEIL - In fond memory of a dear husband, Bert, who passed away, October 18th, 1971.

When family ties are broken
And loved ones have to part,
It leaves a wound that never heals
And also a broken heart.
Your end was very sudden
It made me weep and cry.
But the saddest part of all
We never said goodbye.
For those who have loved ones
Treat them with loving care.
For you never know the heartaches
Till you know that he's not there.

Lovingly remembered by his wife Reita.

IN MEMORIAM

JOHNSTON - In loving memory of our dear son Myles Ellwood, who was killed October 11th, 1968.

There's a family who misses him sadly,
In a home where he used to be.
There's a family who wanted to keep him,
But God willed it not to be.
But as the rainbow is a promise
Of a new and brighter dawn
So has God our father promised
That our loved one will live on.
In a place of light and beauty
That he has set aside
A house of many mansions
Where our loved one will abide.

Sadly missed by Mom, Dad, Brothers and Sisters.

STAMP - In loving memory of my mother, Ethel Louise, who left us 13 years ago on October 12.

If you could have spoken before you died,
These are the words you would have replied
Weep not for me but courage take
And love one another for my sake
The years may wipe out many things
But this they wipe out never
The memory of those happy days
When we were all together.

Always loved and remembered by son, Glenn.

OTTAWA and Small Business

Let's educate the teachers

By KENNETH McDONALD

Canada is the Western world's biggest spender on education. Sweden is next, the United States 9th, West Germany 20th (all expressed in percentages of Gross National Product).

Publicity given to the "functional illiteracy", in spelling, reading and writing English, of high school graduates entering Canadian universities has led to some soul-searching in high schools. But what of the business illiteracy of teachers?

A lot of good work is done in our schools. Young Canadians are well equipped mentally and physically to learn what they are being taught. But they are not being taught how to earn a living.

Don't blame the teachers. Most of them have gone from school to teachers' school to teaching school. They are the products as well as the producers of a closed circuit. Blame the educational bureaucrats and administrators in universities and provincial ministries. But look in the mirror, too.

Education is far too important to be left to the teachers. Let them teach academic subjects. But let the rest of us be sure that

teachers are given opportunities to learn - and to pass on to their students - how the outside world works.

• • •

The Canadian Federation of Independent Business

Water storage half of maximum

On Oct. 4, the storage on the reservoirs was 48 per cent of maximum. Flows were increased from the reservoir watersheds on Oct. 5 to maintain navigation levels on the Kawartha to the end of navigation on Oct. 13.

Beginning about Oct. 14 the remaining storage water will be passed from Haliburton rapidly to enable the setting of winter logs in the dams. This should minimize the effect of the drawdown on spawning fish, while ensuring that essential operations of the dams are performed before icing makes them dangerous and snow or mud prevents access.

Education's purpose is to serve the community, individually and collectively. The Canadian community has to earn its living through industry and exchange. It's vital that young Canadians be taught how to play their part.

With this in mind, the Canadian Federation of Independent Business has authorized an initial budget of \$50,000 for an educational program designed to help students understand small business and the workings of the socio-economic system of free competitive enterprise.

The first move will be an eight-page insert in the November issue of Today's Generation, geared to a readership of 450,000 students in high schools across Canada.

• • •

The Federation is concerned that too much of education's very substantial revenues is being diverted to education where the emphasis is on training for administrative jobs in public and private bureaucracies.

Its aim is to change this emphasis to one which

focuses on the building of skills preparing young people for self-employment.

• • •

Then the education system, instead of mobilizing recruits for big institutions, will begin to nourish the smaller enterprises which sustain local communities.
